## Identity Theft Reminders

- Do not give out personal information over the phone or online.
- Ignore phishing emails asking for you to divulge personal data.
- Ignore phone calls and emails from another country.
- Your credit card number can be used by scammers who know the zip code is needed at unattended credit card terminals, such as gasoline pumps. The next time a sales clerk asks for your zip code for marketing purposes simply decline.
- Do not post personal information, such as your zip code, date of birth or other identifiers that could be stolen, on social media.
- Do not use passwords such as names, dates or locations a scammer could obtain from your social media accounts.
- Think twice before joining a birthday club that gives you a free dessert or discount on your purchases because scammers can pair that information up with other data they've obtained about you to steal your identity.
- Do not carry important documents such as your passport or social security card.
- Do not play "20 questions" games on social media.
